EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Maria T. Bautista on 08/31/2007.

The application has been amended as follows:

In claim 1, line 3, after "nonpolymeric carrier component" and before "having" add:

selected from the group consisting of Vitamin E, Vitamin E acetate, Vitamin E succinate, oleic acid, peanut oil and cottonseed oil, and wherein the nonpolymeric carrier component has

In claim 1, line 3, delete "having"

Art Unit: 1615

Delete claims 13-16

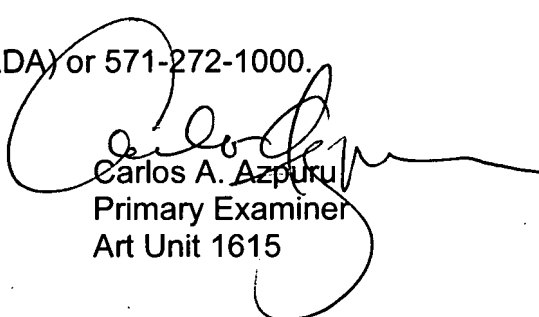

The following is an examiner's statement of reasons for allowance: The prior art does not disclose or fairly suggest the instantly claimed nonpolymeric oil coated stent which contains a bioactive in said coating. The closest prior art is that of Tuch which teaches that a layer of a bioactive may be placed directly on a stent. The bioactive may be tocopherol (see col. 4, Table 1). However, when the bioactive is coated directly onto the stent in this manner, the overlayer polymer layers do not contain further drug (see col. 3, lines 20-26). This clearly teaches away from the instantly claimed invention since even by broadest interpretation, the nonpolymeric coating (tocopherol) does not contain another drug, and the overlaying polymer layers also lack a drug.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
